ADDITIONAL FUNDING		
Scheme	Funding	Details
<b>Research Training Support Grant</b>	£200	£200 per doctoral student is allocated to the Research Training Support Grant. Guidance for how to use this grant can be found in the Guide to Student Funding, available on our website
<b>CDA Maintenance payment</b>	£550	£550 per annum is added to the student stipend for CDA students and is intended to help towards any additional costs incurred by CDA studentships due to the need to work both at the host RO and the non-academic partner sites.

\* A student is only entitled to the total maintenance award if the course or programme of study, and registration on the course, is for the full academic year (i.e. 1 October 2012 - 30 September 2013). If the course or programme of study starts later than 1 October or finishes earlier than 30 September, then the payment should be pro-rated to reflect the actual duration.

\*\* The figures shown for fees and maintenance are the annual entitlement figure, due if registration is for the full year. The fees and maintenance will be paid to the RO in equal quarterly installments.

Please note: We no longer publish part-time rates, as it is for the university to decide what a student studying part-time is entitled to receive, based on their mode and rate of study.
